About The Natural Mat Company:

The Natural Mat Company was founded in 2000 in Topsham in Devon, by Mark Tremlett and Peter Tindall, who as keen sailors both became frustrated with the poor quality of synthetic mattresses found on boats.

Mark and Peter decided to look for an alternative and found natural fibers to be a more superior substitute for boating. With their knowledge and expertise they quickly developed a business making mattresses for yachts and motor boats. With the arrival of Mark's first child, they quickly identified a need for a natural offering for babies.

With a mission to develop the perfect natural sleeping environment for babies and children, Mark and Peter set to work to create a range of pure natural fiber mattresses. After nine months, they were proud to launch the first range of natural baby mattresses.

The handmade range includes organic coir, natural latex and mohair mattresses from cribs through to children's beds. Each mattress provides parents with the peace of mind that babies will have a safe and restful night sleep on the highest quality natural fibers available today.

Natural Mat manufactures and distributes mattresses around the world from its base in Topsham, Devon
